REBELS RETREAT.

General Advance Movement Be-
gins At Manila.

Start Made From San Pedro Mac-
ati, Where the Enemy Had
Assembled Its Best
Forces.

Manila, March 13.—The advance upon the rebels around Manila began this morning. Thirty-five hundred men under command of Brig. Gen. Wheaton began the advance from San Pedro Macati at 7 o'clock. A gunboat began shelling the jungle along the river banks, which were quickly carried as far as Guadalupe. The men under Wheaton two hours later were moving on Pasig, meeting with but slight resistance, the rebels being in full retreat before them. The purpose is to clear the country to Laguna de Bay.

A JUST CLAIM.

Bankers Want the Excessive Taxes
Refunded—Thousands of Dol-
lars Involved.

Frankfort, Ky., March 11.—The Farmer's National bank, of Augusta, Bracken county, filed suit to-day against State Auditor Stone asking for a mandamus to compel him to refund about \$800 excess in taxes alleged to have been paid by the bank to the state, and the result of the suit will be of interest to every bank in the state. After the court of appeals in 1897 declared the Hewitt law invalid, the Augusta bank proceeded to pay the county, city and district taxes, as that decision held it must do, for the years 1893-4-5-7, although under the Hewitt law it had paid 75 cents on the \$100 to the state for those years in lieu of all other taxes. The bank now seeks to recover the difference between the 75 cent tax paid for five years and the state rate of 42½ cents on the \$100, which the court says was the correct rate, and which the auditor refuses to refund. Many other banks are on the same footing as the Augusta bank and if the latter wins the state will have to refund many thousands of dollars.

CARTER LOCATED.

He Made His Way Back to Vir-
ginia On Foot.

Lee Carter, who disappeared from near this city Jan. 14, has been heard from. He was seen by J. C. Davis near Adams Station, Tenn., on the L. & N. railroad, the day after he disappeared from the home of his brother, P. C. Carter. He said he was making his way back to Virginia and would walk to Nashville or further and then take the cars. Davis saw the item in the KENTUCKIAN and wrote to Mr. P. C. Carter. It is probable that Lee Carter is now in Virginia.

INDICTED JACK CHINN.

Charged With Breach of the Peace
in Attacking Senator Bronston.

Lexington, Ky., March 11.—Col. Jack Chinn has been indicted by the Fayette county grand jury for breach of peace in attacking former State Senator Bronston here on Wednesday.

BURNED WITH COAL OIL.

Plant Beds Can Be Prepared in
One-Tenth Time.

The Madisonville Mail says that farmers in Hopkins county are using coal oil to burn plant beds. They use it with or without wood. They clean the ground, loosen it up, soak it with oil and set it on fire. They say it burns more regularly and in one tenth of the time required with wood.

HARMONY PREVAILED

Hardin Men in Easy Control
From Start to Finish.

Dempsey Nominated on a Plat-
form of Less Than Twenty
Words.

Dempsey was nominated for rail-
road commissioner unanimously,
and the Chicago platform was re-
affirmed. This was the net result
of the convention Friday. Every-
thing, in fact, was of the unanimous
order and the convention was over
in a little more than an hour.
Judge Thomas, P. Cook, of Murray,
nominally a Stone man, was the
preliminary chairman and Judge
Eli H. Brown, of Owensboro, a
Hardin man, was the temporary
presiding officer.

It was first planned by the Har-
din forces to offer Judge Brown for
temporary chairman, but as the
Goebel men had agreed on John
Gray for permanent chairman, a
man who represented the interests
of Stone and would have carried
the Stone following in the First
district, their plan was changed
and they, too, took a Stone man,
Judge Cook, for temporary chair-
man, and thus devided the Stone
vote. It was manifest that the
Hardin forces controlled the con-
vention in this way and the Goebel
men made no contests.

The convention was called to or-
der by Hon. J. D. Mcquot, the com-
mittee chairman, shortly after 2
o'clock. Ollie James moved that
the convention take a recess in or-
der that the First district delegates
might confer. A point of order was
raised against this and Chairman
Mcquot ruled that it was not in
order, as the convention was not as-
yet formed, and that his duty was
only to call the convention to order
and preside until an organization
had been effected.

A. O. Stanley, of Henderson, then
nominated Judge Cook for tem-
porary chairman. This was secon-
ded by Ward Headley, of Prince-
ton, and he was elected unanimously.
La Vega Clements, of Owens-
boro, then nominated Mott Ayres,
of Fulton, a Hardin man, for tem-
porary secretary. This was also
seconded by Mr. Headley and the
nomination was confirmed.

Col. David R. Murray, of Clover-
port, then moved that the chair be
authorized to appoint five members
each on the committees on creden-
tials, resolutions and permanent
organization and this was carried.

The committee on resolutions was
as follows: D. R. Murray, of
Cloverport; George F. Campbell, of
Hopkinsville; John L. Smith, of
Eddyville; Ben T. Perkins, of Elk-
ton, and L. P. Tanner, of Owens-
boro. The Hardin program was
thus made manifest.

Col. Murray then moved that all
resolutions be referred to the com-
mittee on resolutions without debate,
thus putting a gag on speechmak-
ing that might prove dangerous.

The committee then retired and
the recess was occupied in hearing
speeches from Congressman Wheeler,
Ollie James, Congressman Allen
and others, all of an enthusiastic
but non-committal character.

The committee on credentials re-
ported no contests and the com-
mittee on permanent organization
reported the names of Judge Brown
for chairman and Frank Bell, of
Hopkinsville, for secretary. Both
are Hardin men. The report was
adopted without discussion or di-
vision.

Judge Brown attempted to make
a speech, but since the convention
was drawing so near to a close,
the crowd would not listen to him
and set up a disgraceful howl all over
the house.

The committee on resolutions
finally brought in a report, which
served to stop the disorder. The
report was as follows:

Resolved, That we re-affirm our
allegiance to the Democratic plat-
form adopted in Chicago in 1896.
This was likewise adopted unan-

THE DEWEY MEDAL.

A Copy of the First Authentic Representation of the Dewey Medal. French's Design.

By the courtesy of the sculptor, Daniel C. French, Harper's Weekly is able to publish the first authentic reproduction of his completed design for the Dewey medal. The Tiffany company will cut the dies and strike the medals in copper—1,635 in all.

Upon the obverse is a lifelike representation of the head of Commodore Dewey, with the following inscription: "The gift of the people of the United States to the officers and men of the Asiatic

THE DEWEY MEDAL.
(From Picture in Harper's Weekly. Copyright, 1898.)

squadron under the command of Commodore George Dewey." Upon the reverse, surrounded by the words, "In memory of the victory of Manila Bay, May 1, 1898," is the figure of a young sailor, striped tunic, who sits upon a gun, with the flag across his knees, and one foot resting upon a swinging loop of rope. In this beautiful figure Mr. French has admirably embodied the genius of the episode in its highest and purest aspect.

The chief characteristic of the face is youth—the beauty, confidence and pure intention of youth. In the pose of the figure are alertness, fearless uprightness and the unconscious grace and composure of assured strength. The very disposition of the flag is suggestive. The moment represented is not the one of victory, but of preparedness thereto. The flag is not a menace to the world, nor under the pretext of its name is a policy of aggression foreshadowed. It is safe in the keeping of Young America, and when the cause is right it will be uplifted.

POPULAR IN CHICAGO.

Christian C. Kohlhaas, Just Appointed Judge of the Federal District of Northern Illinois.

Christian C. Kohlhaas was born near Alton, Ill., January 8, 1851. His mother's family was among the early settlers, having come to Illinois in 1821, three years after the state was admitted to the union. His father was born in Germany and came to this country when quite young. Judge Kohlhaas and his brothers—E. W. and H. H.—received the rudiments of their education at the academy in Galea, Ill.

Judge Kohlhaas came to Chicago in 1862 and entered the old University of

CHRISTIAN C. KOHLHAAS.
(New Judge of the Federal District of Northern Illinois.)

Chicago, where he remained three years. He then took up the study of law in the offices of Gallup & Hitchcock. He was admitted to the bar in 1867 and went into partnership with Fred A. Smith, now senior member of the firm of Smith, Palmer & Moulton.

A short time later he became municipal clerk and record writer in Judge James B. Bradwell's court, which position he held for 15 months, when he resumed the practice of law.

In 1884 Mr. Kohlhaas was appointed a west park commissioner. This position he held until 1894, when he was appointed to fill the unexpired term of Judge Knickerbocker, of the probate court. He has been on the probate court bench ever since, having been elected three successive times. Judge Kohlhaas is married and lives at 229 Ashland boulevard, Chicago, with his family of one son and three daughters. He is a member of the Union League, Illinois and Hamilton clubs and the Chicago Bar association.

with grip. Book now very much

HAS A NEW NOSE.

Sergeant Freeman Lost His Natural One

at Omdurman.

An interesting fact has just come to light which strikingly exemplifies the wonderful stories of modern science. It is a case in which a warrior from the great battle of Omdurman who suffered serious facial disfigurement and his features made to appear to all intents and purposes as perfect as if nothing had happened. In short, he had the greater part of his nose cut clean off, and he has been provided with a new nose. This hero of the Sudan, by name Sergt. Freeman, is a member of the Twenty-first Lancers, and he took part in the memorable charge at Omdurman. During the charge one of the lieutenants of the lancers was attacked by a dervish, who, getting hold of the officer's right hand, in which he carried his lance, commenced industriously sawing at the wrist with his sword, with the evident intention of severing the hand. Sergt. Freeman was fighting his way through a bunch of dervishes when he heard the young officer, who was Lieut. Meacham, cry out, and, turning, saw the predicament in which he was placed. He made a dash for the spot, and, running his lance through the dervish, saved the lieutenant. However, at the next moment he was confronted by two dervishes, who wildly slashed at him with their swords. He parried the blows and killed them both in turn, but one terrible blow from a sword came so near to ending his life as to strike his nose and carry away the lower cartilage as far as the upper lip.

Freeman was invalided home and became an inmate at Netley hospital. He ultimately recovered and was sent by Col. Martin, who was in command of the Twenty-first lancers in the great battle, to consult Mr. Groves, L. D. S., R. C. S., of Wolverhampton, who has become famous for his restoration of facial disfigurements. Mr. Groves, in spite of exceptional difficulties, has treated the case with complete success. An artificial substitute for the natural organ has been built up, so that the injury is not perceptible. Sergt. Freeman has left England for Cairo to rejoin his regiment. He has proved himself a gallant and heroic soldier, and it is pleasant to know that he goes back to Egypt apparently none the worse for his awkward experience, having been saved from a lifelong and unsightly disfigurement.

Mr. Groves himself thus describes the means by which he gave the sergeant his new nose: "The artificial organ is first molded from a plaster model of the face and then worked up in platinum and vulcanite, and painted and fired until the artificial production becomes an exact reproduction of the lost feature."—London Public Opinion.

HOW A DUKE LIVED.

Luxurious Living Carried Down to a Fine Point.

In a little weekly English magazine, dated April, 1891, a writer in whose family was among the early settlers, having come to Illinois in 1821, three years after the state was admitted to the union. His father was born in Germany and came to this country when quite young. Judge Kohlhaas and his brothers—E. W. and H. H.—received the rudiments of their education at the academy in Galea, Ill.

If the duke of Q— does not extend his life to a still longer period it will not be for want of culinary comforts and those other succulent arts which longevity is best promoted. His grace's "stomach" is thus administered: At seven in the morning he regales in a warm milk bath, perfumed with almond powder, where he takes his coffee and buttered muffin, and afterward retires to bed; he rises about nine and breakfasts on café au lait, with new-laid eggs, just parboiled, at 11 he is presented with two warm jellies and russet; at one he takes a well cutlet à la Maintenon; at three jellies and eggs repeated.

At five the duke has a cup of chocolate and rusks; at half past seven he takes a hearty dinner from high-seasoned dishes, and makes suitable libations of claret and Madeira; at ten tea, coffee and muffins; at 12 suppers of a roast poulet, with a plentiful dilution of lime punch; at one in the morning he retires to bed in high spirits and sleeps till three, when his man calls, to the moment, waits upon him in person with a hot and savory vegetable, which, with a potation of further repose, that continues general uninterrupted till the morning summons to his laudan bath.

In this routine of life the comforts are the four-and-twenty hours invariably divided, so that if his grace does not know, with Sir Toby Belch, "that our life is composed of the four elements," he knows at least, with Sir Andrew Aguecheek, "that it consists in eating and drinking."

Color and Scent.

African travelers tell us the white rhinoceros frequently dies from eating poisonous plants, which are never eaten by the black one, probably because the first scent of the latter tells him they are dangerous.

Water from the Jordan.

An establishment has been opened in Paris for the sale of the water of the River Jordan for baptism, when the Jordan is desired to be used, and can afford to purchase it.

INCURABLE DISEASES

Many diseases considered incurable are curable under other names. Simple catarrh in the head is called incurable. Consumption is catarrh of the lungs, and its victim is, no doubt, past help in the more advanced stages; but great numbers of people die of consumption needlessly. It is certain that every phase of catarrh, including many cases of consumption, are cured by the right treatment. Per-na, Dr. Hartman's great prescription, attacks catarrhal diseases scientifically and cures them. Dr. Hartman explains it fully in his books which are mailed on application. Here is a letter from Mrs. Harneing, Mazo Manie, Wis., who is one of many cured of consumption by Per-na. She says:

Per-na Medicine Co., Columbus, O.

DEAR SIR:—"I cannot praise your remedy too highly. Last winter I had a gripe and hemorrhage of the lungs followed. All the doctors around here told me I had to die of consumption. Then I thought I would ask Dr. Hartman for advice, which I did. He prescribed Per-na for me, and I took it according to his directions and was cured. I advise everybody that is troubled with lung disease to take Dr. Hartman's treatment. I am sure they will not regret it if they do. I am now enjoying good health, and can thank Per-na for it."

"ZONES OF INAUDIBILITY."

New Solution of the Cause of the Molehogan Disaster.

Another strange solution of the Molehogan disaster is put forward. Ray John M. Bacon, of Newbury, Berkshire, England, one of the highest authorities on the science of acoustics, has turned his attention to the great mystery surrounding the terrible disaster.

In conjunction with the late Prof. Tyndale, Mr. Bacon made many remarkable experiments, the result of which surprised the scientific world. One of these discoveries was the existence of "acoustic clouds"—that is, floating masses of air of a different density to that of the surrounding atmosphere, which, though wholly invisible, are incapable of reflecting sound and causing echoes out of empty air. During the last few years various observers, sailors and others, have reported passing through such "zones of inaudibility." At three or four miles' distance a foghorn has been heard distinctly. A mile or so nearer the sound has almost faded away. Nearer still it has boomed out again in loud tones, and then, within half a mile, it has died into utter silence. On a return journey over the same course the "zones of inaudibility" have again been traced.

Mr. Bacon says that the Molehogan disaster at once raised the question in his mind of "zones of inaudibility," and he thinks it possible that the sound of the Manacles rock bell buoy gradually died away as the doomed vessel approached the fatal reef.

Surgery and Non-Smoking.

At first sight there seems no striking association between surgery and smoking; but it seems that the comendous operating theater at Addenbrook's hospital, Cambridge, owes its inception to smoke—or, rather, tobacco—smoke therefrom. The theater was built by a generous donation of £2,000 from Mr. A. Peckover, the lord lieutenant of Cambridgeshire, and a leading member of the Society of Friends. This is how it came about: The lord lieutenant explained to a public meeting the other day where that £2,000 came from. It was cigar money invested at compound interest for over half a century, reckoned upon the basis of one shilling per day cigars. Mr. Peckover saved it, and the smoke has yielded a noble institution for alleviating suffering.

MORE ABOUT AN ELEVATOR.

Some Suggestions Offered as to
How to Get One.

EDITOR OF KENTUCKIAN:

You were kind enough to publish my article on the need of a Grain Elevator at Hopkinsville. Will you now permit me to offer some suggestions as to how to get one? First let some practical business man (farmer preferred) who has been successful in managing his own affairs and has some knowledge of machinery, and good judgment as to the quality and condition of wheat, undertake to work up the enterprise. He should be a man of good address, who has the confidence of the community and who would put some money into it himself. This one man with the advice of such others as might become interested, should undertake to inform himself minutely as to the kind and capacity of elevator needed; the cost of building and operating the same, how it should be done, where located, etc., and should also be able to intelligently present the matter to others. And, second, the farmers should be the principal stockholders, as far as practicable, so that they could have a direct interest in, and control of, their own elevator. My plan for raising the stock would be to have the shares \$25.00 each, and for every farmer, who expects to market 500 bushels, or more, of wheat, this year, to subscribe for 1 share of stock for every 500 bushels; say, for instance, if I should sell 500 bushels, I take one share of stock in the elevator, and my neighbor, who will sell 1,000 bushels, take two shares, and so on. In my opinion, the elevator would enable us to realize at least 5 cents a bushel more on our wheatear year, taking into account all of its advantages, and we could well afford to put one year's advance into stock in the company. Of course every farmer will not do this, which would make it necessary for others to put in more, but this is given simply as a basis to work on. The stock that may not be taken in this way, could be offered to investors in the county or city. The management should be in the hands of a Board of Directors, elected annually, by all of the stockholders, and these Directors should elect the man to take charge of and operate the Elevator, who should give bond for the faithful discharge of his duties.

A steel, fire proof Elevator, built after the latest approved methods, with modern machinery, to be operated by one man, and if it can store on an average of 100,000 bushels for six months in the year, it would pay him a fair salary and make a good dividend for the stockholders.

Now let the right man take hold of it and proceed to the organization of a company without delay, as in a few months, the harvest season will be upon us.

M. B. KING.

\$100,000 Given Away.

Separate Beautiful Flowers and use the letters to form as many words as you can, using the letters backwards or forwards, but don't use any letter in the same word more times than it appears in "Beautiful Flowers." It is said forty small English words can be spelled correctly from these ten letters. For example: ten, feet, set. The Hamill Seed Company will pay Two Hundred Dollars in cash to the person sending them forty words formed as above. If you are good at word making and can form forty words write your name and address plainly on your list and inclose the same with fifteen two cent stamps for ten packets of Beautiful Flower Seeds of ten popular and different varieties.

Our object in giving this Two Hundred Dollars is to attract attention to and introduce our seeds in the S. S. offer will be carefully and conscientiously carried out and it should not be classed with catch-penny affairs. We will spend a large amount of money to start our trade order; you will receive the greatest value in seeds ever offered. If two or more persons succeed in forming forty words the \$200 will be divided pro-rata. Many extra special prizes of value will be awarded to persons sending twenty-five words or more who will assist in introducing our seeds and specialties.

Satisfaction is absolutely guaranteed or your money promptly refunded for the asking. Send your list early as possible. Address Hamill Seed Co., 945 Warren Ave., Chicago, Ill.

SUCH IS FAME.

A Small Schoolgirl Gets the Hero of Manila into a Bad Mix Up.

One of the most popular of the young professors in the male high schools tells an amusing little story on a small, up-to-date schoolgirl. She went to one of these district schools over which a cousin of the professor presides. It is usual to have visitors at the building now and then, who ask the scholars questions and see that everything is in good shape.

One day not so long since a party of callers came in and requested the pupils to write the answers to several questions propounded them. One of their questions was: "Tell what you know about Admiral Dewey's great fight."

The children set to work figuring on their answers, but the teacher noticed one of the girls did not make a move to do so.

"Why don't you write your answer to the question?" she demanded of the idle pupil.

"Taint no use," was the slow response. "I don't know nothing about it."

"But," remonstrated the teacher, "you must try, anyhow; you must not sit there idle while the others are doing the best they can. See if you cannot think of something, my dear."

"No use," protested the pupil. "All I know is that Dewey and Corbett fought, and I don't know which whipped and I don't care either."

Such is fame, and the bold sailor who sank Montez's fleet must go promading down the halls of time with a pompadour ex-sluggar for a partner.—Louisville Times.

RECENT INVENTIONS.

Eggs can be rapidly beaten by a new utensil formed of a screw threaded central shaft, having blades at the bottom, with a handle fitting over the top of the shaft to revolve the latter as it is pushed down, a spiral spring returning it after each stroke.

A handy counting device for scoring games is formed of a fan shaped plate, with pointers pivoted at the base to swing around the curved edge, the latter having graduations for units, tens and hundreds, with notches which hold the pointers from slipping.

For dredging channels in river beds a new machine is mounted on the bow of a boat, having an adjustable post which carries an endless chain of buckets to be lowered to the bed of the stream and bring up the dirt, dumping it in a scow alongside the machine.

Signal lanterns for use on railroads are to be made with a plain glass lens, with a rack at the rear of the lens for the insertion of a colored brass plate for flashing a signal, with a pocket in the back of the lantern to carry a good many plates of different colors.

Why She Refused It.

A certain aged lady recently fell a victim to the popular craze and on occasion arrayed in full cycling costume (with bloomers) she visited a garulous old cove, to whom she occasionally dispatched parcels of broken food and so on.

"Good morning, Susan," said the lady "I have brought you a small parcel containing tea and sugar and you will also find a nice warm flannel petticoat."

"Thank ye, me leddy," replied the old dame, scanning the portly donor from top to toe. "I thank ye for the tea and sugar, but I would rather not take the flannel petticoat."

"Not take—the petticoat?" exclaimed the surprised lady. Why not?"

"Well me leddy, beggin' yer pardon for being so bold, but seeing as yer leddyship is 'a' cut the maister's trousers down 'an wear 'em as niggerbuckers, I naturally conclude that yer leddyship wants the petticoat vasser than myself."—Spare Moments.

NOT AERAID OF MAN.

Remarkable Tameness of Animals in the Yellowstone Park.

The slaughter of birds has almost entirely removed one of the delightful accompaniments of life in the rural east—the music of the feathered songsters. Apropos of this, it may be said that one of the most pleasant features of the drive through the Yellowstone National park is the apparent intimacy between man and the animal and bird life in the park. Thanks to the wise and stringent regulations, no shooting is allowed within its boundaries.

"The result," says an English tourist, "is positively charming. Hundreds of little chipmunks, with their gaudy striped backs, scampered impudently about or peered at passing coach from the roadside. The squirrel did not bolt for the nearest tree, but nodded a welcome. All bird life treated us likewise. Even the lordly eagle hovered near, and the wild turkey stalked unconcernedly through the rank grass. We were fortunate enough to see a fine specimen of the wolf tribe. He stood, a beautiful creature, and watched us out of sight, showing only curiosity, not fear. Another time we perceived a doe and fawn grazing by the road. Not until we were within a few feet did they seek the shelter of the woods, yet not to fly. They simply moved aside. Here at least mankind was regarded as a friend—one who could be trusted. The only animal who ran away was a brown bear. He turned trail at the sight of a coaching party, yet it was quite a common thing for bears to approach close to the hotels at evenings to feed on the refuse thrown out. It was an after dinner relaxation for the guests to watch them feeding. They munched and disputed the choicest morsels, for the most part indifferent to the company. Only when we became inquisitive and approached too near did they retire, and these animals were perfectly free and unfettered in their movements. It would read like a fairy tale, but it is solid fact."—Troy Times.

HE DID NOT HAVE IT.

William Lightfoot Visserth tells this characteristic story of Hon. Isaac Parker, famous as the terrible judge at Fort Smith, Ark., who probably sentenced more men to be executed than any other judge that ever lived. This was not, however, because he was so unrelentingly severe, but because he had the hardest and most numerous lot of criminals to deal with that ever came within the jurisdiction of such an official. One day when there was an unusually large batch of culprits to be sentenced, the judge looked compassionately over his spectacles at one young scamp, and said: "In consideration of the youth and inexperience of this prisoner, I shall let him off with a fine of \$50."

Before the judge had done speaking the very fresh young man coolly stretched his right leg and ran his hand into his trousers' pocket on one side, remarking nonchalantly as he did so:

"That's all hunky, judge; I've got that much right here in my jeans."

"And one year in the penitentiary," concluded the judge. Then looking over at the convict in a quizzical sort of way, he added: "Do you happen to have that in your jeans?"—Woman's Home Companion.

Richest Beggar on Earth.

The richest beggar in the world lives in Russia. He was born without feet or arms, and his physical defects have brought him great sympathy and much cash. Sympathy would be better bestowed if it were given to the army of industrious men in this country who overwork themselves and break down their health. These men lose their appetites, and their stomachs "go back on them." Their nerves are shattered and they cannot sleep. The quickest way for these men to recover their health is to take Hostetter's Stomach Bitters, which is intended particularly for those who suffer from any of the complaints mentioned. This remedy is so well known that it is recognized as one of the world's standard medicines.

We commonly cut our eye-teeth on something harder than a rubber ring.

CONSUMPTION CURED.
Dr. Otto's Spruce Gum Balsam will cure any case of consumption if taken in time. Consumption starts with a slight cough or cold. As the white consumption gets into you, you will use Dr. Otto's Spruce Gum Balsam. You will cough, bleed the lungs and throat and avoid the most dreaded of all diseases—consumption. Delay is attending to a slight cough may cost you your life. Large size bottles. Price 25c and 50c. For sale by Anderson & Fowler.

There is small revenge in words, but words may be greatly revenged.

Sole manufacturer, P. O. box 218, Waco, Texas.
For sale by T. D. Armistead, Hopkinsville, Ky.

READ THIS.

Bartlett, Texas, Sept. 3 1896.—E. W. Hall, Waco, Texas: Dear Sir—I have used your Great Discovery for kidney trouble and can recommend it to anyone suffering in like manner.
R. W. THOMPSON,
Mayor of Bartlett.

Don't marry a loud man—it's a poor exhibition of sound sense.

What it Does.

"My children inherit scrofula, but by the help of Hood's Sarsaparilla we have almost entirely eradicated it. Nothing gives an appetite and promotes digestion like this medicine. We have used it in our family for years and believe it to be the best tonic and blood purifier we can get."
NORAH HUGHES, Hughey, Tennessee.

Hood's Pills give strength even while their cathartic qualities are at work. Easy to take.

Don't marry a poet—his songs might be averse to your way of thinking.

Chamberlain's Cough Remedy.

This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It was composed famous for its cures of these diseases, under a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good work of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. It is especially prized by mothers for their children, as it never fails to effect a speedy cure, and because they have found that there is not the least danger in giving it, even to babies, as it contains nothing injurious. Sold by R. C. HARDWICK.

Friendship is a plant that loves the sun and thrives ill under clouds.

Geo. B. Second, the well known contractor of Towanda, N. Y., says: "I have used Chamberlain's Cough Remedy in my family for a long time and have found it superior to any other." For sale by R. C. HARDWICK.

Don't marry a widower—remember his other wife.

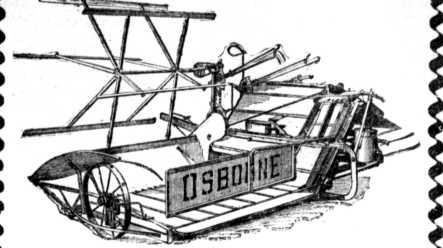

Dr. Otto's Spruce Gum Balsam.
A physician can prescribe Dr. Otto's Spruce Gum Balsam. The formula is on the package. Cures your Cough in a day. Very pleasant to take. Large size bottles. Price 25c and 50c.

Carlstedt's German Liver Powder.
For sale by Anderson & Fowler.

Branham & Sheets.

SEASON OF 1899.

TO OUR FRIENDS: Another season of seed time is fast approaching, and the wise and prudent farmer will again use the old and favorably known JONES' BRANDS or BONE AND ANIMAL MATTER FERTILIZERS, that have for many years done their full duty when applied to both Spring and Fall crops. The use of commercial fertilizers is almost universal, and the experience of many years has proven conclusively that ANIMAL MATTER FERTILIZERS are the most complete plant food known, and the fact of putting ACID PHOSPHATE ROCK in a bag and branding it "SOLVED BONE" does not make it animal matter. Honest, strict, pure Animal Matter Fertilizers cost more than rock goods because they are worth more, and we ask that you remember this fact. Our goods go out under our guarantee analysis, and this guarantee is good. We offer our goods on their merits, and refer to their satisfaction, to their most excellent reputation in all parts of Ohio, Indiana, and Kentucky, where they are extensively used. We respectfully urge you to give the celebrated Jones Fertilizing Co.'s goods a trial on both Spring and Fall crops, and we know satisfactory results and future orders will certainly follow.

OFFICE 212 SOUTH MAIN STREET.

—TUESDAY, MAR. 14, 1899.—

Property worth a quarter of a million dollars on St. John's river, near Jacksonville, Fla., was destroyed by fire Sunday.

Hon. J. D. McQuot has decided not to be a candidate for re-election to the House from McCracken county. This insures the nomination of L. K. Taylor, a former Populist leader.

Mr. J. W. Hollingsworth, of Caldwell county, is a Democratic candidate for representative in the lower House of the Legislature. Hon. Bennett Henderson has not yet announced for re-election.

The Third Kentucky Regiment now in service in Cuba will be mustered out at Savannah, Ga., April 1st. An official order to that effect was signed this morning.

The Hardin men easily controlled the Hopkinsville convention. Capt. Stone was unable to control them in his own delegation to vote for a man who was for Goebel second choice. The permanent officers of the convention were out and out Hardin men and the Hardin program of silence on state issues was carried out without opposition.

Capt. Whitlow handled his 300 guests like a general. With a capacity of 180 he was of course a little crowded, but he met the emergency with a big supply of cots and plenty of help in the dining room, and the result was that he was congratulated by everybody on the character of service he was able to give to the big crowd.

In answer to the action of the Cuban Assembly in impeaching him as Commander-in-Chief of the Cuban army, Gen. Gomez has issued a statement to the Cuban people and army. He says he has endeavored to do his duty, and that he is owed nothing, retiring satisfied with what he has done, and saying: "Wherever destiny rules that I make my home, there can the Cubans depend upon a friend."

It has been fifty years since postage stamps began to be used in the United States. They began in July, 1847. They had been used in England seven years before being introduced by Rowland Hill, the father of penny post. John M. Niles, U. S. Postmaster-General, tried in vain to induce Congress to adopt postage stamps—"sticking plasters" they were called. His successor Cave Johnson, was successful, however. The first purchaser of stamps in this country was the father of Josh Billings.

The most interesting or important article in a magazine is not always to be found at the beginning. Sometimes a striking feature is secured when half the forms are ready for the press, and room has to be made for it near the latter end of the magazine. It was so with Gen. Shafter's "Capture of Manila" in the February Century; it is so again this month with Major-General Greene's "Capture of Manila." Gen. Greene is the author of the standard history of the last Turco-Russian war, and of other military works. In writing of the campaign in the Philippines he speaks with authority; for he commanded the second expedition from San Francisco and took a conspicuous and important part in operations of the army. This is the first of two articles from his pen. Lieut. Hobson tells in this number of his experiences in prison in Santiago and his observations of the siege; Lieut. J. B. Bernadou, who commanded the torpedo-boat "Winslow" in the action at Cardenas in which Ensign Bagley was killed, tells the story of May 11; Lieut. Cameron Winslow, who commanded the cable-cutting expedition at "Cienfuegos" on the same day, describes the hazardous operations which he directed; and Mr. Arthur Houghton gives a realistic glimpse of "Scenes Capital" on the eve of the late war.

SCHOOL IN CUBA.

A Nashville Institution May Open a School in Cuba Soon.

Prof. Draughon Leaves Next Wednesday For Cuba With That Object in View.

We clip the following from a late issue of the Nashville Banner: Prof. Draughon married a daughter of J. W. Settle, of Kentucky, and he and his wife have many friends in Christian country who are glad to know of Prof. Draughon's success in the school work.

"Prof. J. F. Draughon will leave Wednesday next, accompanied by Mrs. Draughon, for a visit to Cuba with the view of opening a school in that country some time in the near future. While on this trip, he will also visit Savannah, Ga., and Charleston, S. C., to arrange to open a business college in the one or the other of these places during the next ninety days.

"Prof. Draughon has just returned from a visit to his business colleges located at Galveston and Texarkana, Texas, and reports that more students have entered his different colleges during the past sixty days than ever before entered in the same length of time, over 1,000 students having been enrolled at his three colleges during the past year.

"Prof. Draughon's success in the business college work has been phenomenal. In addition to the success of his college work, he publishes four text books on book-keeping, of which he is author, and two text books on shorthand and two on penmanship, of which his teachers are authors. The extent of the sale of these books, especially the one on book-keeping, is remarkable; it averages from \$5 to \$10 per day. The most encouraging feature of it is that about 50 per cent. of the orders received for his books on book-keeping come from practical book-keepers and business men general—persons who are the most competent judges of up-to-date methods. The immense sale of these books to practical book-keepers and business men keeps Prof. Draughon in constant communication with them. This fact explains to some extent his great success in securing positions for his students. His correspondence at his Nashville office is very heavy, requiring nine typewriters in his private office.

"Prof. Draughon informs us that on account of the great demand for his books and of the many persons who desire to attend his colleges in order to get advantage of his superior course of instruction, he has decided to open business colleges in almost every State in the Union. He now has several large cities in the North selected, in which he will open schools during the next two years. His general course of book-keeping is copyrighted and cannot be taught in other business colleges without his consent, but numbers of teachers connected with the commercial departments of literary schools and teachers of private schools are by special arrangements using his books—a man that furnishes good feeders for his schools."

About advertising, Prof. Draughon has this to say: "I owe much of my success to advertising, and I am of the opinion that no enterprise, especially one that has to depend on the public for patronage, will flourish unless it is well advertised. In other words, it always pays to advertise an article of merit, unless it is an article of a peculiar nature. Some say that they advertise but very little through the newspapers, as their customers are living advertisements. It has been my observation that the returns in such cases do not come soon enough, and that the expenses while waiting for results far exceeds the profits. It is needless to further comment on the final result."

Miss Lucy Fanz, daughter of a wealthy retired business man of Knoxville, Tenn., committed suicide there Sunday by jumping from the Tennessee river bridge of the Atlanta, Knoxville and Northern railroad.

Mrs. J. C. Terry, of Adairville is visiting in the City.

CHURCH HILL CHRONICLES.

Newspaper Letter From South Christian—Many Local Items.

Church Hill, Mar. 12.—Wonder what has become of our Church Hill correspondent, guess he is married, moved or misplaced, as he has been reticent so long. So I will endeavor to gather up a few items for the KENTUCKIAN, during his absence.

Wanted:—Twenty-five thousand ducks to eat up the mud in the Church Hill vicinity.

Miss Queenie Moss, of Bennetts town, is the pleasant guest of Miss Carry D. King this week.

Our spring school, which is being taught at this place by Mr. J. W. Knight, is progressing nicely. Prof. Knight is a splendid teacher, and we wish him much success in his undertaking.

The farmers' business has been a little dull. Several complain of not earning their board since Xmas. Guess it is the case with most of us, as we have had one of the most severe winters that I ever witnessed. A number of young stock, such as pigs, lambs and calves, perished on account of the extreme cold weather. Several plant beds burned, but few sown. Wheat is looking worse than for years. A small percentage of corn still in shock. No oats sown.

A cargo of la gripe has been sailing round and about our town, distributing very liberally its awful disease among our fellow-townsmen. But every one is on the road to recovery at this writing.

Rumor has it that Church Hill will soon be the home of another dairy, but as the enthusiast has become somewhat disinterested on account of the death of his cattle, it is thought that it will be postponed for a while.

The party given at the hospitable home of Mr. M. B. King on the 8th inst., was largely attended by the elite of Church Hill. Numerous games and music were the features of the evening. All returned home at a late hour with happy hearts and smiling faces.

I have already transgressed on your many readers and will drop this thing right here. With many kind wishes for the people of Old Kentucky, the KENTUCKIAN and its editor, I am yours to stick.

STRANGER.

GOVERNOR BRADLEY

To Leave Kentucky Permanently—Will Locate in the West.

Frankfort Ky., March 10.—Governor Bradley will leave to-morrow for Warm Springs, Va., for a 10 days' stay for his throat trouble, and from there he will go to California and other Western states in search of a suitable place to locate and practice law after his term expires next December, as he has determined to leave Kentucky. He will be away about three weeks, and Lieutenant Governor Worthington will arrive to-morrow to act as Chief Executive during his absence.

GOES DRY.

Kentucky Town Votes to Continue Its Prohibition Law.

Guthrie, Ky., March 11.—Trenton, this county, voted on the whiskey question to-day whether or not it should be sold within the corporate limits. The result of the contest is twenty-one majority for prohibition. The little village is to-night in a perfect state of rejoicing. Prohibition has prevailed here for a number of years, and to-day's election was a test of its popularity.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do it ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price 75c per bottle. Hall's Family Pills are the best.

"Spring Unlocks The Flowers"

To "Paint the Laughing Soil."

And not even Nature would allow the flowers to grow and blossom to perfection without good soil. Now Nature and people are much alike; the former must have sunshine, latter must have pure blood in order to have perfect health.

Hood's Sarsaparilla cures blood troubles of all sorts. It is to the human system what sunshine is to Nature—the destroyer of disease germs. It never disappoints.

Poor Blood.—The doctor said there were not seven drops of good blood in my body. Hood's Sarsaparilla built me up and made me strong and well." SEAS E. BROWN, 16 Astor Hill, Lynn, Mass.

Dyspepsia, etc.—A complication of troubles, dyspepsia, chronic catarrh and inflammation of the stomach, rheumatism, etc., made me miserable. Had no appetite until I took Hood's Sarsaparilla, which acted like magic. I am thoroughly cured." N. B. SHELLEY, 1674 W. 14th Av., Denver, Col.

Rheumatism.—My husband was obliged to give up work on account of rheumatism. No remedy helped until he used Hood's Sarsaparilla, which permanently cured him. It cured my daughter of catarrh. I give it to the children with good results." Mrs. J. S. McMASTERS, Stamford, Ct.

Hood's Sarsaparilla Never Disappoints

Hood's Pills cure liver ills, the non-irritating and only cathartic to take with Hood's Sarsaparilla.

SEED TIME.

J. T. GARROTT,
Oak Grove, Ky.

Garden and Flower Seeds.

A new enterprise—a strictly first class, complete, and exclusive seed store. MAIL ORDERS A SPECIALTY. ALL KINDS OF PLANTS IN SEASON.

Call or send one cent stamp for descriptive catalog and price list. Terms strictly cash. Office and sales room at Armstrong's furniture store, 5th St. LEE O. BRUMFIELD, Hopkinsville, Ky.

Fee of \$3.00.

The Cumberland Telephone and Telegraph Company, with headquarters in this city, filed amended articles of incorporation with the Secretary of State, increasing its capital from \$3,000,000 to \$6,000,000. The fee paid the State for this increase was \$3,000, or \$1 on each \$1,000.

Beaten About The Head.

Ezekiel Marshall, a man about 55 or 60 years of age, was assaulted by John Dollins near Laytonsville Friday and badly beaten about the head. Particulars had not been learned yesterday. No arrests have been made. Marshall is not dangerously hurt.

Gather here and there the pearls of life; it is but a weary pilgrimage at best, and yet there's much to cheer us.

HARMONY PREVAILED

(Continued from First Page.)

imously. Ollie James then nominated Judge Dempsey for railroad commissioner in a brief but stirring speech. Hon. Thos. H. Corbett, who was at one time a candidate for commissioner, but withdrew, seconded the nomination, and Harry Tandy, of Paducah, who was also a candidate, moved that the nomination be made unanimous. It was done on a rising vote. Judge Dempsey made a brief speech thanking the convention for the honor of a second nomination to this position, and the convention adjourned.

Mr. Goebel made a speech Friday morning to a large crowd of people and was given close attention. His speech was made in accordance with a previous appointment to speak in this county. He followed along the line of previous speeches, but its tone was not so pronounced as that he made in Hartford last week. He again called upon the other candidates to state their position upon issues which he had brought forward and which have not yet been answered.

Aside from the outrageous interruption of Judge Brown when he attempted to speak, the convention was carried out with the utmost order. The Goebel men took their medicine, but they say the race is young yet.

The flattering nomination of Dempsey is a source of great satisfaction to his friends. He has made a splendid record as railroad commissioner and richly deserves the endorsement he got.

The Crowd on Hand.

The attendance of out of town people was far ahead of expectations. The register at Hotel Latham showed 300 names and the Phoenix 50. Both hotels were full and many who came on the day of the convention did not register, but ate at the restaurants. Many other delegates stopped with friends out in town. It is safe to place the number of visitors at 500, while the county and city attendance was equally as large. It was a big convention and no better body of men ever assembled in the court house.

There were so many prominent men present, that it is easier to tell who was not on hand. Of all the State candidates Gen. Hardin and Capt. Headley alone were absent. Scores of party leaders were in the crowd and twenty or thirty newspaper men came as delegates or correspondents. The Courier-Journal, Commercial and Post all sent special correspondents. Congressmen Wheeler and Allen and Ollie James were the only men called on to make speeches and all spoke briefly.

RAILROAD MAN TO MARRY.

The Groom-to-be a Prominent I. C. Official.

Announcement is made of the betrothal of Miss Mary Mallory, of Memphis, Tenn., and Mr. J. T. Harahan, Second Vice President of the I. C. railroad. The wedding is scheduled for April 19 at the Mallory home.

Mr. Harahan is well known here. He was at one time General Manager of the C. & O. road and before taking service with road he was connected with the L. & N.

Miss Mallory has for several years been a leader in Memphis society.

CYRUS RADFORD PROMOTED.

Christian County Boy is Made Assistant Quarter Master.

Washington, D. C., March 9.—An official order was issued today promoting Lieutenant Cyrus S. Radford to the position of Quarter-master in the Marine Corps.

The promotion was made for gallant and meritorious conduct during the late war with Spain, and considerably increases the young officer's salary.

Lieut. Radford was first Lieutenant of Marines, and witnessed the destruction of Cervera's fleet outside of Santiago harbor from the battleship Texas.

He had command of the forward turret guns, and his well-aimed shots helped to sink several of the enemy's ships.

Prior to this he had charge of the marines who buried their dead comrades in the province of Santiago de Cuba under heavy fire of Spanish sharpshooters.

Lieut. Radford was highly commended by Capt. Phillips of the Texas, in his official reports. When requested by a celebrated publisher to contribute several chapters to a history of the war, Capt. Phillips referred the publisher to Lieutenant Radford, stating that the Kentuckian was better qualified to write the story of the part the Texas played in the great naval battle.

Lieutenant Radford graduated from Annapolis in 1890. He is the author of a work on ordnance which has been adopted as a text book by the government.

KIPLING MUCH IMPROVED.

Is Able to Sleep and Shows Steady Gains.

New York, March 12.—On Saturday afternoon and in the night Rudyard Kipling, who is convalescing from pneumonia at the Hotel Grenoble, suffered greatly from pleuritic pains, and in consequence got no sleep. This morning, however, he felt much easier and fell asleep. Throughout the day he took several short naps and was much improved tonight.

"Mr. Kipling's brain is all right," said Mr. Doubleday. "He is the same old Kipling that he was before he was taken ill."

GANTI & SLAYDEN.

HANGING AT GLASGOW.

Murderer Franklin Swung Off Last Friday.

Glasgow, Ky., March 10.—John-son Franklin was hanged here at 7:17 o'clock this morning for the murder of his mother-in-law, Mrs. William Boales, near Beckton, last September. An unsuccessful effort was made by some of the officials of Barren county to induce Gov. Bradley to respite Franklin until April 3, the day set for the execution of Bob Brown, in order that both executions might take place at once.

DEATH OF MR. MASSIE.

Succumbed to Pneumonia After an Illness of Two Weeks.

Mr. Henry Massie, a well known farmer of the West Fork neighborhood, died of pneumonia last Thursday afternoon, after an illness of about two weeks. He was a member of the Christian church and was a man highly esteemed by all who knew him. Deceased left a wife and two children. The remains were interred in Edgewood cemetery, at Trenton, Friday afternoon.

Where the Tide Divides.

A tide that sweeps across the southern Indian ocean from Australia to the Cape of Good Hope divides at the latter point. One part continues to travel in a westerly direction toward Patagonia and the other moves northward up the Atlantic. The latter portion, reinforced by a newly-born tide formed between Africa and South America, takes 12 hours to advance from the cape to the coast of New Jersey, New England and Nova Scotia. The eastern wing of the Atlantic wave sweeps on toward Ireland and Norway, arriving six hours later in the vicinity of the former and 12 in the coast of the latter.

Candle Coal Its Name.

Cannel coal was once used as a substitute for candles, because it can be cut into blocks or strips, and burns with a clear yellow flame. Its real name is candle coal.

CIRCUIT COURT.

The Wadlington Case Continued Until the June Term.

The Noted McRoy-Grant Seduction Case Goes Over Till Another Week.

Circuit Court was interrupted so much last week by the convention that the business done was of small importance. Only minor orders and motions were the outcome of the last part of the week's docket.

Yesterday the case of Claude Wadlington, charged with the murder of Parks Wilson at Gracey, Jan. 6, 1898, was set for a second trial. The large array of counsel and most of the army of witnesses were on hand, but the case was continued until the June term of court. It was set for the seventh day of the term.

The McRoy seduction case was also continued until the 31st day of the present term.

WILSON-REYNOLDS.

Fashionable Wedding at the Baptist Church at Allensville.

At 7 o'clock last Wednesday evening, March the 8th, at the Baptist church, Allensville, Ky., was the scene of an event of great interest to Allensville society. The occasion was the marriage of Miss Susie J. Reynolds and Henry S. Wilson. The ceremony was witnessed by a large assemblage, and was a beautiful scene, long to be remembered.

Mrs. Prof. Vick was organist; she sang, "Call me Thine Own," in her own inimitable way, after which the wedding march was played as the bridal party entered.

The bridal procession was effectively arranged. The ushers were Messrs. Cave Reynolds, Jr., Dr. Carl Russell, Will Glass, Elmer Williams.

The groomsmen were Messrs. Charlie Hughes, Sam Reynolds, Sidney Small, Russell Wilson.

Best man Mr. Tom Rhea.

Maid of honor—Miss Alma Paine. The bridesmaids—Misses Gertrude Couts, Ruth Paine, Mary Grinter, Cynthia Gill. They wore lovely street costumes and carried crimson carnations made with maiden hair ferns into very graceful shower bouquets.

No sweeter picture ever charmed the eye than that which Miss Reynolds made as a bride, as she entered the church with her maid of honor. Her gown was strikingly effective and stylish; her flowers were large lovely Bride's roses, made into an exquisite shower bouquet with maiden hair ferns and smilax. Maid-of-honors flower were lovely Mermets.

The groom with his best man followed. The organ from the full tones of the wedding march had changed to a soft tender melody as the service was begun. Rev. J. D. Moore performed the ceremony, while the audience were held in rapt admiration of the impressive scene.

The wedding gifts were unusual in number and very handsome. This fair bride received a set of teaspoons from her grand-mother, dated 1717, that were originally owned by the father of the Hon. Cave Johnson, dec'd., of Clarksville, Tenn., who was in this day a noted lawyer and politician, and was also United States Postmaster General during Polk's administration, and who had the honor of inducing congress to adopt the use of postage stamps in the United States fifty odd years ago.

Mrs. Wilson, the bride of last week, is a great-great niece of Hon. Cave Johnson, dec'd., and is, the only daughter of Mr. Cave Reynolds, a prominent planter of Todd county. Mr. Wilson is in every way a true and worthy gentleman, and enjoys a wide popularity.

The bride's gifts to her maids were sterling silver bracelets, with Shakespearean quotations. Gift to maid of honor enameled and pearl brooch.

Mr. and Mrs. Wilson left immediately after the ceremony for an extended bridal trip. On their return they will reside at Adairville, Ky.

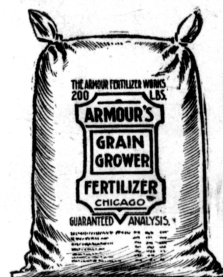

Ham sacks, all sizes, for sale at this office.

This plant covers 62 acres of ground, and employs 6,100 hands. 21,326 carloads of material and machines entered and left the factory during 1898. No other harvester works in existence can approach these figures in output, sales, shipments, or size of plant.

Above is the birth-place of the Deering binder. At maturity it issues thence to conquer the world, for its field of operations are not confined to the United States, but stretches out to England, France, Scotland, Germany, Hungary, South Africa, Russia and Australia. The great Corliss Engine used in the Machinery Hall at the World's Fair is used in the twine department. This factory turns out 31 miles of twine and one complete machine per minute. Its size, capacity and number of employees surpass any other two Harvester works in the world.

The Deering is now away in the lead owing to its progressive policy. It used ball bearings four years before the others followed suit, and in many other features it is equally as far ahead. THEY ARE EASY TO SELL because they are easy to run and easy to keep running. This is our twelfth year as Deering agents. You can always find repairs for it right here. Buy the best and you will never regret it.

FORBES & BROTHER.

MRS. TRAINUM DEAD.

Remains Brought to Trenton and Laid to Rest Saturday.

Mrs. Elizabeth Trainum died at the home of her son, Mr. C. A. Trainum, in Knoxville, Tenn., March 10, in her 80th year. She was an aunt of Mrs. R. I. Trainum, of this city, and also a sister-in-law of Mr. R. I. Trainum, of this city.

She leaves three daughters and two sons, Mrs. E. Basford, of Trenton, Mrs. William Summerhill, of Oak Grove, Mrs. Lucy Killebrew, of Knoxville, Tenn., Mr. C. A. Trainum, of Knoxville, Tenn., and Mr. Frank Trainum, of Oak Grove. She was born in Virginia, but moved to Kentucky in early childhood, and has been a resident of Kentucky, until about eight years ago. She was a member of the Methodist church, was a noble Christian character and loved by all who knew her.

APPROACHING NUPTIALS.

Rev. Charlie Nourse Will Wed a Trigg County Belle.

The marriage of Rev. Chas. E. Nourse, pastor of the Presbyterian church at Princeton and Gracey, to Miss Willie Baynham, of Cadiz, is announced for March 29th. Mr. Nourse is a son of Rev. W. L. Nourse, of this city, and is a young divine of unusual ability and great promise. The bride-to-be is one of the prettiest young ladies in Trigg county, a daughter of Mr. W. J. Baynham. Particulars have not yet been made public.
